Vittorio Vittori

Design System Architect · Senior Product Designer

Emilia-Romagna, IT | Open to Full Remote (EU timezone)

Professional Profile

Design System Architect with a strong background in UX/UI design and front-end development. I design and implement scalable design systems, component libraries, and governance processes to ensure consistency, quality, and reduced development time across digital products.

Creator of Magma Design System, which reduced development time and cost by 35% and standardized company-wide UI and brand identity. Experienced in bridging design and engineering, managing documentation, standards, roadmap, and versioning within complex enterprise environments.

I also act as a Senior Product Designer specialized in complex Enterprise SaaS. I have successfully refactored legacy management software and optimized critical user flows, resulting in a 100% sales increase for key products by aligning UX with business goals.

Experience

Design System Architect · Senior Product Designer

Maggioli Spa — 2021 · Present — Santarcangelo di Romagna (IT)

Magma Design System — Architecture, Development & Governance

- Lead architect and creator of Magma Design System (DS), adopted across multiple business units.
- Designed monorepo architecture (Node.js + NX) managing Tokens, Identity, Icons, and Components.
- Developed **90+ agnostic Web Components** (StencilJS + TailwindCSS), usable in React and Angular.
- Defined visual guidelines, accessibility rules, documentation and adoption workflows.
- Automated token pipelines using Style Dictionary and Adobe Leonardo, generating **WCAG3-compliant color palettes** with **light / dark** mode support.
- Leveraged AI-assisted development with Claude to accelerate component development, documentation generation, and design decision analysis.

Governance, Collaboration & Leadership

- Full ownership of roadmap, versioning, releases, documentation and alignment with R&D and front-end teams, coordinated 1–2 contributors and supported product teams in DS adoption.
- Introduced and evangelized DS culture across the company.

Strategic Impact

- Reduced development costs/time by **35%** and eliminated redundant UI implementations.
- Standardized UI patterns and brand identity across the organization.

Previous Experience

Senior UI/UX Designer · Front-end Developer

Flowing Srl — 2019 · 2021 — Cesena (IT)

- UI/UX design and prototyping with Figma.
- Front-end development using HTML/SASS/CSS with scalable CSS architecture (BEM).
- Collaboration within Agile teams on enterprise-level projects.

UI/UX Designer · Front-end Developer

Ideato Srl — 2013 · 2019 — Cesena (IT)

- UI/UX design and responsive front-end development.
- Introduction of internal pattern libraries and modular CSS guidelines.
- Support transitioning toward more maintainable front-end codebases.

Core Skills

Design Systems · Component Libraries · Product Design · UX/UI Design

AI-Assisted Development with Claude (development, documentation, design analysis, code review)

Web Components · StencilJS · React · Angular · TailwindCSS

Design Tokens · Figma · Adobe Leonardo · Accessibility (WCAG)

Node.js · NX · Agile · CSS Architecture · Governance & Documentation

Team Leadership · Front-end Development · Brand Standardization

Education

- Digital Artist Master — Hypermédia — 1999 · 2001 — Faenza
- Art Diploma Specialization in painting and sculpture — Istituto d'Arte di Forlì — 1994 · 1999 — Forlì

Languages

- Italian — Native
- English — B2
